

# Increasing Brand Awareness and Generating an 8:1 ROI by Serving Digital Ads to HCPs at the Point-of-Care

## INTRODUCTION

Pharmaceutical companies want to drive disease awareness, guide treatment options and establish their brand as the therapy of choice. However, with increasingly limited access to physicians, field teams are challenged with reaching HCPs at the point-of-care. This has led to the increased use of non-personal promotion that fails to break through the noise at critical moments of the decision-journey. The result is wasted spend engaging the wrong audience, a lack of conversion and failure to elevate script lift. Swoop is changing all of this.

## THE CHALLENGE

A top brand for the treatment of hyperkalemia wanted to increase awareness among priority HCPs to drive script lift in a competitive marketplace.

## THE SOLUTION

To reach priority HCPs at the point-of-care, Swoop served doctors digital banners with efficacy messaging on their mobile devices while they browsed compliant content online.

## THE OUTCOME

Approximately 500,000 HCPs were served over 5 million impressions over the course of the 14 month campaign. Engagement was 10% greater than industry average with a CTR of .11%, resulting in an ROI of 8:1.
